**BLAUFRÄNKISCH**

Grown in our Outer Coastal Plain Vineyard since 2005, this is our first release of a 100% varietal. Blaufrankisch is considered one of the best Hungarian red wine grape varieties. In addition to being the second most planted dark grape variety in Austria, Blaufrankisch is widely grown in Bulgaria, Serbia, Slovenia, Germany and the Czech Republic. While Blaufrankisch is capable of a wide range of styles, we chose to produce an oak-aged version which would most likely qualify under the Austrian Burgenland DAC Reserve Classification. This deeply colored red has its own distinct and racy characteristic. Blaufrankisch pairs well with grilled foods and a range of roasted game.
